

JL Turf Group Capability Statement

Public procurement summary - no private client documents included

Who we are

JL Turf Group designs and builds commercial-grade synthetic turf, sports surfaces, mini-golf, landscape construction and outdoor commercial fit-outs for councils, schools, developers, sports clubs and hospitality operators.

Delivery model

One contractor from site assessment through earthworks, drainage, sub-base, surface installation, line marking, finish and handover. Core install work is delivered by an in-house team with director involvement.

Representative capability

Large-scale institutional sport surfaces, intricate custom synthetic turf, multi-sport courts, rooftop and podium greens, playground surfacing, drainage interfaces and commercial outdoor amenity areas.

Procurement support

Fixed-price scoping, methodology support, material specifications, maintenance planning, warranty records and insurance certificates of currency supplied to qualified buyers on request.
